About This Game

*Few survived the first week.
Welcome to 1991.*

Dead Pixels II: Straight to Video is a procedurally generated side scrolling shooter set in a post apocalyptic city in the near future of 1991. Fight your way through the hordes of the undead as you try to find a way out of the city. Raid buildings for supplies and work with other groups of survivors in order to get out of this nightmare with a pulse.

Key Features

-  Procedurally generated city that is never the same.
-  100's of weapons, items and valuables to scavenge from around the city.

Online and local 1 - 4 player co-op.

Customize your character appearance to tell your own story of survival.

Optional CRT and VHS effects.

Multiple gameplay modes. From story mode to quick game and survival.

Once you finish bring your character back into a new game at a harder difficulty.

Awesome synth soundtrack.
