Good for £3.99. Does anyone have suggestions on how I can play Kings Quest 7 on Windows 8? I had success with 1-6, however when clicking 7 it says I cannot play on this PC. I tried installing the most recently suggested patch from below, but that caused all of them to not work until I uninstalled the patch. please HELP! the only one I was most interested in playing was #7 and of course it happens to be the only one that wont seem to work with Windows 8

Edit: I guess I should have read through the reviews in more detail. It is a shame that Steam offers this when it is not compatable with any new computers for KQ7. They should reduce the price and advertise it for KQ 1-6. Anyone know how to request a refund?. I purchased this game when it was on sale. I'm torn on whether I was happy or sad that I did. The gameplay is fun and fast paced. Some of the boss fights feel a bit cheesy. Most enemies are invulnerable to damage when they are attacking. There are two different paths a player can take and one of them feels so much easier than the other that it's not even funny.

That aside, I see this game took some inspiration from Zelda 2 and Contra. The sound effects were OK. Keep in mind that the main character was voiced by an 8 year old. It was fun and cute at first, but on the second playthrough it was really getting on my nerves.

Felt like there were some glitches with the quest markers showing up when I couldn't finish certain quests.

Some of the levels had what felt like a crazy amount of instant death spikes.. The demanding price for this game is unreasonable by the extreme end of the sprectrum. Those with even the slightest interest, feel free to disregard as this game really brings nothing new to the genre. If this game is much better suited as a flash game on Armor Games V Newgrounds. The RNG in this game is shoddy and no customization.

"..deeply tactical and highly visual experience.."

This description cannot be any further from the truth.. Such a fun game that has got the entire family around the Virtual board game table. I can has more Drawful & Jackbox.

Note: I highly recommend not to play this game if you don't own a controller.

I really enjoyed this game. It's a short but fun beat' em up. Graphics aren't the best but the whole combat system is pretty good. Even though the storyline is short, Freesia is definitely worth coming back to whenever you're bored and just want to play something casual.

Solid 8/10 imo.

. Would highly recomend. Amazing FPS, I believe better than any of the chivalry games. Controls are very smooth and has a great story. I have tried for a whole 7 minutes to get all the achievments but I cant. It's a nice break from easy games like ratsnorp and that barbie game where you rescue puppies. Scream For My IceCream,

Tell me all you're dirty dreams.

Scream For My IceCream,

Show me what's your fantasies.

Let's

Get this party started

Drink

Til we get ♥♥♥♥♥♥♥♥

She licked me like I'm Ice Cream...

She's melting

What the ♥♥♥♥?

You know that we do it rough

Move your feet

To the beat

With this♥♥♥♥♥♥♥♥>This song's complete

Move your body super sweet

Always like an ice cream treat

Got a montser in my pants,

And if I ever get the chance,

Gonna cram it down your throat,

Watch you gasp for air and choke.

I'm gonna ♥♥♥♥ all in you're face!

I'm gonna wreck this ♥♥♥♥in' place!

Pull my hair,

Smash the chair,

Break the bed,

And give me head!

Scream For My IceCream,

Tell me all you're dirty dreams.

Scream For My IceCream,

Show me what's you're fantasies.

Sorry I get a little faggy sometimes. Any way,

Pros:

-Story

-Controls

-Blood on The Dance Floor

-FPS

♥♥♥♥♥♥br>Cons:

-The game allows you to be ♥♥♥♥ like: Bi, Gay, and people who dont like anyone?

-No storm troopers

-I have a runny nose

. Hey does anyone want to give me a game online?

. 3/23, couldn't leave the game because of "polandball will be sad" :(Not sure why I'd recommend this game. Maybe for the potential. Game doesn't make much sense.. A really nice update for the original Swarmriders, which is free. It doesn't bring much to the table, but it's fun and cheap\u00ad.. A Really good horror game, and I am very impressed with the quality we receive from this game considering the price. It's well worth it. :)
